### SUMMARY

Recent Geography graduate with three years of experience in ArcGIS software and data analysis. I have undertaken experience within one of the leading companies within geographical industry at CDP as an environmental scorer where I enhanced my statistical, auditing and reporting skills that I developed at university reviewing companies, cities and regions disclosure reports. This vacancy allowed me to demonstrate my expertise within collaborative and remote working, meanwhile, expanding on the transferable skills such as problem solving, taking initiative and communication that I have attained throughout my life from both sport and previous jobs that I have enrolled myself in from 15 years old. Now my goal is to use these leadership skills to pursue a career within the industry of analytics and geography

### **SKILL HIGHLIGHTS**

- Arcgis, Erdas Imagine and QGIS software
- Map production, presentation and general creativity
- Project management
- Environmental and cultural awareness
- Numerical analysis
- Working independently and as a team

- Spatial reasoning
- Documentations, audting and reports
- IT literate specifically Microsoft, Mac and SPSS packages
- Languages Spanish and Slovak (beginner)
- Working collaboratively and remotely
- Fieldwork
- Organisation and management

### EXPERIENCE

### Labourer - Nicolas Ballard – Gloucestershire

#### Present

- Proficient organisation, preparedness and project management for example having the ability to sort out deliveries and correct equipment for jobs to arrive on time
- Customer service exemplified, often working within people's properties
- Communication skills between clients to organise work and within a team such as groundsman digging and driving heavy machinery like dumper trucks

### Warehouse Operative- Tesco - Avonmouth

#### 2022

- Quality control developed when scanning, assembling and picking of products
- Using pallet trucks and wrist mounted computers
- Maintaining general cleanliness to ensure the safety of all workers
- Opening and closing of cages that products are stored in

# Sept 2022 – Nov

### Nov 2022 –

### **BRADLEY COLE – GEOGRAPHY GRADUATE**

### 1 month Gap in work history due to travelling around Eastern Europe

### **Environmental Scorer – CDP Remote**

### 2022

- Collaborative working such as attending daily meetings to discuss queries of a company's questionnaires
- Statistical analysis and data entry developed when scoring companies questionnaires based on methodical analysis sheets. Often using Microsoft packages
- Being able to work remotely and working to deadlines involving submitting work online, and answering calls

# Labourer - Nicolas Ballard – Gloucestershire 2022

See present employment history

### Fabric Engineer - Architen Landrell – Chepstow

### 2021

- Operate and programme technical machinery whilst maintaining an environment of both innovation and safety
- Contribute as a technical reviewer during the latter stages of the projects requested by clients implementing my ability within quality control
- Coordinate with other engineers and graphic designers in various plans and prints epitomising my project management ability
- Overcome challenges associated with time, cost-efficiency and general practicality again developing the ability to work to deadlines

### Warehouse Operative - Downtons – Chepstow

- Heavy lifting of boxes
- Precision labelling in order to maintain presentation
- Stacking and wrapping pallets and products to be transported to the clients
- Maintaining a cleanliness of the warehouse
