Design Thinking for user experience 4
2022-2023

➤ SKILLS

User research: Conducting user interviews, surveys, and usability testing to gather insights and inform design decisions.

Wireframing and prototyping: Utilizing industry-standard tools such as Sketch, Figma, and Adobe XD to create interactive prototypes and visualize design concepts.

Information architecture: Organizing and structuring information in a logical and intuitive manner to enhance usability and user flow.

Visual design: Applying principles of color theory, typography, and layout to create visually appealing and engaging designs.

Problem-solving: Identifying user pain points and developing innovative solutions through a user-centric design process.

Collaboration and communication: Working effectively with cross-functional teams, including developers, product managers, and stakeholders, to deliver cohesive and impactful design solutions.

Adaptability: Demonstrating flexibility and the ability to quickly learn new tools and methodologies to meet project requirements.

Time management: Excelling in multitasking and prioritizing tasks to meet deadlines without compromising the quality of work.

Do my home - Casa Grand | NOV 2021 - MAY 2022 , Chennai , Tamil Nadu
HomeOne| MAY 2022 - JULY 2022 , Chennai , Tamil Nadu
Freelance Interior designer | Present , India

Collaborated with clients to understand their vision, requirements, and preferences for residential and commercial interior design projects.
Developed design concepts and presented them through 2D and 3D renderings, mood boards, and material samples.
Conducted site visits to assess spatial constraints, take accurate measurements, and identify potential design opportunities.
Created detailed design documentation, including floor plans, elevations, and construction drawings, to guide contractors and ensure accurate implementation.
Managed project timelines and budgets, coordinating with vendors, suppliers, and contractors to ensure timely delivery and installation of materials and furnishings.
Developed strong client relationships, maintaining open communication channels to address concerns and provide design solutions.
Projects:

Residential Renovation: Led the redesign of a two-bedroom apartment, incorporating modern and sustainable design principles. Managed all aspects of the project, from concept development to final installation, resulting in a 25% increase in client satisfaction.
Commercial Office Space: Collaborated with a team of architects and engineers to transform a vacant space into a vibrant and functional office environment. Implemented innovative design solutions that improved employee productivity and morale.

COMPUTER SOFTWARES

Thank you for considering my application. I am excited about the opportunity to apply my skills and passion for design in the field of UX. I look forward to contributing to your team and learning from experienced professionals in the industry.
