+44 7446 067326

## Summary

After pivoting my life from the automotive business to Python programming, I find my true passion in building and learning.

I gained the following skillset from building personal projects: trading bots, backtest framework, websites, OCR image2table bot. Etc..

- Django
- HTML, CSS, bootstrap
- data processing & analysis
- PostgreSQL, MySQL
- Linux
- GCP & AWS
- GitHub

GitHub: sd816224. Leetcode 50+.

Currently learning: JavaScript and React
